Narrative Description

The Wukair Logistics City project consists of a sophisticated, multifunctional compound on a 1,000,000m² land parcel. Project components include business centers, warehouses, storage areas, an auction area, a car park, maintenance facilities, housing, administrative buildings and technical facilities / areas.

Dar Al Handasah Nazih Taleb & Partners provided comprehensive architecture and engineering services covering master planning, preliminary design and detailed architectural, structural, civil (infrastructure) and electromechanical design.
